

HOT WATER APPARATUS.—The attention of architects, builders, and others, is respectfully requested to BENJAMIN FOWLER'S superior method of heating churches and chapels, halls, stair-cases, conservatories, forcing and green-houses, manufactories, and warehouses, kilns, rooms for drying timber, &c., and every variety of purpose for which artificial heat is required. Within the last twenty years some hundreds of buildings have been heated upon this plan, and the parties for whom they were erected are constantly expressing their satisfaction, also their willingness to vouch for their efficiency. An improved wrought-iron boiler, which requires no brickwork, may be seen in action upon the premises. BENJAMIN FOWLER, 61, Dorset-street, Fleet-street.

PROSSER'S EXPERIMENTAL RAILWAY AND BENNETT'S PATENT.

THE attention of Railway Companies, Builders, and others, is respectfully called by the Proprietors of Sir William Bennett's Patent to the Wood-n-Rail and down at Prosser's Experimental Railway on Wimbledon-common; part of which, having been prepared by their process, in addition to being effectually preserved from dry rot, will be found to exhibit all the characteristics of the thoroughly seasoned timber, although only cut down in the month of May last, and prepared while in a perfectly green state. Hydraulic apparatus and Tanks. Millwall, Poplar, nearly opposite Greenwich; Offices, 43, King William-street, London-bridge.

POLONCEAU'S BITUMEN PAVEMENT for paving Foot paths, Terraces, Garden walks, Stables, Coach Houses, Granaries, Corn Stores, and Salt Warehouses. For the exclusion of Damp and Vermin in Basements it is particularly adapted, and for Roofing Dwelling Houses, Porticos, Balconies, and Sheds.

BITUMEN for covering the Arches of Bridges, Culverts, &c., &c., on Railways and other places (with instructions for laying it down), may be had at the rate of 45s. per ton, by applying to JOHN PILKINGTON, 15, Wharf-road, City-road.

TO ARCHITECTS.

IN consequence of many complaints having been made to the Company, by Architects, of a spurious material having been used in the execution of Works where the *Seyssel Asphalt* had been specified for the Directors, with a view to ensure the fulfilment of any such specification, have authorised **CERTIFICATES** to be granted to Builders where the

SEYSSSEL ASPHALTE

has been used. For the purpose of securing the use of the Genuine Article, Architects and others are recommended to insert in their specifications the "*Seyssel Asphalt*," "*Claudet's Patent*," and not merely "*Asphalt*," or "*Bitumen*," as in many cases where these terms have been used, spurious and other worthless and offensive compositions have been introduced. I. FARRELL, Secretary, Stagnate, near Westminster Bridge, Jan., 1845.

Books of Instructions for Use may be had at the Office of "The Builder," and of all Booksellers in Town and Country, price 1s.

* In proof of the necessity of the above advertisement, it may be mentioned, that it has come to the knowledge of the Directors, that in certain works which have been executed by Messrs. CURTIS, Builders, of Stratford, a spurious material has been used by them, contrary to the specifications, which expressly mentioned, that "*Claudet's Asphalt*," was to be used.

Also in the case of a work at Lewisham executed by Messrs. ROBERT and DANIEL YOUNG, of 10, Crown-row, Waltham-road, where *Seyssel Asphalt* was specified for, a spurious article was nevertheless laid down by them.
